

My name is Rich Johnson founder/curator of The Soul Factory Presents Concert series. I've been using Sean's services for over 3 years now. His attention to detail, professionalism, punctuality & ability to give his clients exactly what they need visually is why I'll use no one else.

Sean's photography makes my concerts look larger than life. When I post them on social media (marketing purposes) it gives on lookers the feeling they've missed out on a fantastic event.

Sean's ability to capture any emotion through Photography is the reason why his services are in such high demand.

Great pictures last night at MIST!
Your gift is incredible, you capture
the heart and soul....simply beautiful!

Hi again,
Just want to send a little note that
your pictures are very well received
"back home" in Sweden.
And once again thank you so much.
Hope it is ok if I contact you if more
events will turn up in the future.

All the best

I've worked with Sean for a few years now and have never been
disappointed. He has a great eye for movement, angles and light. He
can capture that rare moment. The Magic in LIVE and he's easy to
direct if needed. If you need someone to SHOOT, he's
your lens.
